Bowel
Screening
Wales

Mae sgrinio
coluddion yng
Nghymru yn
ehangu.

Bowel screening
in Wales is
expanding.

O fis Hydref 2024, bydd pobl 50 oed yn derbyn gwahoddiad awtomatig i gael pecyn sgrinio'r coluddyn y GIG am ddim bob dwy flynedd.

Mae pobl 51-74 oed eisoes yn gymwys i gael pecyn sgrinio'r coluddyn.

Gall sgrinio helpu i ganfod cancer y coluddyn yn gynnar, pan nad oes gennych unrhyw symptomau.

From October 2024, people aged 50 will automatically be invited to receive a free NHS bowel screening test kit every two years.

People aged 51-74 are already eligible for bowel screening.

Screening can help find bowel cancer early, when you don't have any symptoms.

Peidiwch ag anwybyddu eich pecyn prawf am ddim pan fyddwch yn ei dderbyn – gallai achub eich bywyd.

Don't ignore your free test kit when you receive it – it could save your life.
